0.1 Acknowledgment	
0.2 Dedication	
0.3 Abstract	
1 Introduction	
Chapter 2: Base Settings and CAD analysis	
2.1 Mathematical and CAD Analysis	
2.1.1 Design based on strength	
2.2 Base Manufacturing.	
2.3 Base Installation.	
2.4 CAD Analysis approach	
2.4.1 Complete CAD model	
2.4.2 Motion study	
Chapter 3: KUKA conditioning	
3.1 Robot Mastering	
3.1.1 Mastering Methods	
3.2 Calibration	
3.2.1 Defining tool direction	
3.2.2 Tool calibration	
3.2.3 Base calibration	
3.2.4 Fixed tool calibration	
3.3 KUKA software	
3.3.1 SimPro Setup	
3.3.2 WorkVisual	
3.3 WorkVisual and LAN connection	
3.4 Installation of KUKA.Sim Pro	
3.5 End-Effectors Installation	
3.3.1 Pneumatic Gripper	
3.3.2 Electric Spindle	
Chapter 4: Robot Programming	
4.1 Coordinate Systems	
4.1.1 Axis Specific coordinate	
4.1.2 Cartesian Coordinate	
4.2 Forward ,Inverse kinematics, and interpretation	
4.3 Motion Programming	
4.3.1Motion Types	
4.3.2 Approximate Positioning	
4.4 User Programming	
4.5 Expert Programming	
4.4.1 KRL Quick guide	

Chapter 5: Robotic Operating system(ROS)

- 5.1 Introduction
 - 5.1.1 Modularity
 - 5.1.2 Distributed Nature
- 5.2 Road Map to ROS development
 - 5.2.1 File level System
 - 5.2.2 Computation Level System
 - 5.2.3 Community Level System
- 5.4 Using Sensors with ROS
 - 5.4.1 Kinect
 - 5.4.1.1 Operation
 - 5.4.2 OpenNI
 - 5.4.2.1 Skeleton Tracking
 - 5.4.2.2 Kinect Drivers
 - 5.4.3 3D Visualizing tool (Rviz)

Chapter 6: Development

- 6.1 Development of Industrial Applications: Robot Machining
 - 6.1.1 Introduction.....
 - 6.1.1 State of the Art
 - 6.1.2 Implementation
 - 6.1.3 2D Machining: KUKA Inkscape Extension
 - 6.1.4 3D Machining: ZUKA CNC
- 6.2 Development of KUKA Communication Interface: KRL Driver
 - 6.2.1 Introduction.....
 - 6.2.2 State of the Art
 - 6.2.3 Implementation
 - 6.2.4 KRL Driver
- 6.3 Development of Research Applications: Vision System Implementation
 - 6.1.1 Introduction.....
 - 6.1.1 State of the Art
 - 6.1.2 Implementation
 - 6.2.1 Visual Servoing: Hand Guiding
 - 6.2.2 Safe Operating Zone

Conclusion

Appendices
